DETAILED ACTION

Response to Amendment

1. Applicant's explanation of the instant invention in pointing the difference with the cited prior art was found to be convincing to the Examiner. Additionally, Applicant's amendment of claim 1 corrects the problems noted in Paper No. 35 (0903), paragraphs 1 and 2 and accordingly, the rejection to claims 1 – 7 and 21 – 23 based on 35 U. S. C. 102 (e) is withdrawn.

Allowable Subject Matter

2. Claims 1 – 15 and 21 – 35 are now allowed.

3. The following is an examiner's statement of reasons for allowance:

Claims 1 – 7 and 25 – 35 recite, inter alia, a rearrangement sheet comprising an insulating sheet with a smaller area than the top surface of an element and having conductive metallic patterns each extending continuously in a straight line. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 8 – 15 recite, inter alia, a semiconductor device comprising a rearrangement sheet between two elements and provided with a plurality of conductive metallic patterns formed in a region exposed from the second element and surrounding the second element. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.
